Passionate developer with a strong interest in problem-solving, seeking to leverage expertise in software development to contribute effectively to a dynamic team environment.

EXPERIENCE

Pravinya Infotech

Hubli

Full Stack Developer Intern

Dec 2023 – Aug 2023

- Developed a web application using Django framework to assist educators in planning and managing lessons effectively.
- Before the Lesson Planner, Educators grappled with disorganized lesson materials and inefficient planning processes due to the lack of a structured tool, hindering their teaching effectiveness.
- Implemented essential functionalities like quiz-taking and notes uploading, enabling educators to assess student progress dynamically and share supplementary materials seamlessly, enhancing the overall teaching experience.

ThinkWonders

Remote

Intern

Dec 2022 – Mar 2023

- Researched diverse subjects pertinent to the company's projects, market dynamics, competitor landscape, and industry advancements, contributing valuable insights for informed decision-making.
- Handled administrative tasks such as scheduling meetings, managing emails, and organizing documents.
- Contributed to social media management, content creation, and event organization.

EDUCATION

KLE Technological University

Hubli, India
